Dear Customers,

Thank you, once again, for your consideration in our program. If you have bought cattle from us in the past, you will notice some changes. One is that this catalog is coming to you almost two months prior to last year's bull sale catalog. People have asked why we made that switch and it's really no reason other than practicality in our family's lives. We want to be able to calve cows and get some of these front-end bulls to stud early and it allows us more time to figure exactly how we will mate for the coming season. It will allow us to travel some more in search of bulls that can help shape our program in the future and that was why we made the decision to move the sale up.

As far as the bulls go this year, it would probably be an understatement to say I'm excited. The bulls are as uniform as we have ever produced and there are individuals in the offering that we can't wait to AI our own cows to. It has me optimistic for our future and the impact the bulls can make on the industry.

Lastly, this year has been about a constant focus for us to get better as seedstock providers. We have traveled more than ever this year and have acquired some new donors and identified bulls to AI with. Those selections are based strictly on what pays in a commercial setting. The calves are born within calving parameters. We cull for extreme birth weights, both light and heavy, because neither one of the types have vigor and they end up costing us in the long run. We do not tolerate cows with bad udders or disposition, and the list go on. I could write for hours about the "rules" we have for our cows but I don't care for the computer that much! What you need to know is that we are always here. It is a constant effort to continue to make this program as relevant as you will find. Call, text, come visit - we would like to have the opportunity to prove to you why our program helps your operation.

We appreciate your interest very much!

Thanks again,
Jordan Rhodes

Annual Production Sale

Wednesday, January 29, 2020

1 p.m. CST • At the Ranch
4.5 mi. E & 2.5 mi. N of Faulkton, SD

Auctioneer:

Seth Weishaar 605-210-1124

Sale Day Numbers:

Jordan Rhodes 605-228-9301
Jackson Rhodes 605-216-7841
Ryan Effling 605-881-7690

Representatives:

Devin Warillow 780-581-4329
Castle Rock Marketing
Dennis Ginkens 406-670-9839
Tri-State Livestock News
Jeff Kapperman 605-940-5104
Tri-State Neighbor
Jeff Thomas 406-581-8859
The Prairie Star
Donnie Leddy 605-695-0113
Cattle Business Weekly

Retained Interest:

Retaining 1/3 semen interest and selling 2/3 semen interest and full possession.

Guarantee:

All of the bulls in this offering are guaranteed to pass a fertility and health examination. In the event of a bull failing a semen test or being injured, a suitable replacement will be furnished if available. We encourage buyers to purchase livestock loss of use and mortality.

Supplement Sheet:

Scrotal measurements and current weights and gains will be available on sale day. Yearling bulls will not be semen tested, but the aged bulls will be tested and ready to go.

Feeding and Delivery:

We will continue to feed and develop the bulls until late-March and April. We will deliver the bulls free to the state of South Dakota and surrounding states. If the bulls go anywhere else, we will do our part to provide a ride for those bulls for a fair rate.

Liability:

All persons attending the sale do so at their own risk.

Online Promotion:

Catalog cowcampcatalogs.com
Videos DVAuction.com
Facebook Rhodes Red Angus

Online Bidding:

Real-Time bidding is available through DVAuction.com. See page 2 for instructions to register before the sale to bid online.

Health Program:

We utilize an extensive preventive medicine/vaccination program to ensure our herd has every opportunity to optimize performance, fertility, and overall herd health. Spring Vaccination: BVD I & II, IBR, BRSV, PI3, Mannheimia hemolytica, Pastuerella multocida (Vista Once), 7-way clostridial (Vision 7), AHC Autogenous Mycoplasma bovis, Moraxella bovoculi, injectable dewormer (LongRange). Pre-conditioning prior to weaning: Vista Once, 7-way clostridial, Histophilus somnii (Vision 7/Somnus), AHC Autogenous Mycoplasma/Pinkeye. Weaning: IBR, BRSV, PI3 intranasal (Inforce 3), Vista Once, Vision7/Somnus, AHC Autogenous Mycoplasma/Pinkeye, Injectable dewormer (Ivomec 1%) Deloused (Cleanup II). The bulls will also have passed a breeding soundness exam prior to sale and will be vaccinated and ready for breeding.

Breeding Vaccination:

BVD I & II, IBR, BRSV, PI3, Campylobacter, 5-way leptospira (Virashield 6 VL5), AHC Autogenous Mycoplasma/Pinkeye, Fusobacterium necrophorum (Fusogard), Deloused (Cleanup II). Herd Health programs are developed and overseen by Dr. Bode at the Animal Health Center in Faulkton, SD.

Terms & Conditions:

The terms of the sale are cash and all settlements must be made at the close of the auction. All breeding animals are guaranteed in accordance with the rules and regulations set forth by the Red Angus Association of America.

DVAuction Broadcasting Real-time Auctions

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- 1) Visit the DVAuction web site at www.dvauction.com
- 2) Click on the "Register" tab
- 3) Enter a user name, password and your contact information.
- 4) Click on "Apply for Bidding."
 - Select the sale from the list of other auctions and click "Apply".
 - Complete the process by filling out the Banking & Lending information requested.
 - Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
 - If you would prefer to be approved using your credit card, call (402) 316-5460.
 - Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DV Auction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DV Auction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

Common Sense is the best example of a breeding bull we have produced. He is a near spitting image to his daddy but may be a tick bigger framed, with all the same mass. He is proud, thick and has masculinity and breed character. He steps into his track the way he should and has a very good foot – a true breeding piece. I can see this bull as a 3-year-old out on cows and he will be the front pasture kind. Come take a look at him and if you don't like him, we'll pay for your trip home. Retaining 1/3 semen revenue. Selling 2/3 semen and full possession. We'll collect and breed with common sense in our own AI program. This is one we really believe in - he has a real shot to get some stuff done.

Bushwacker is a really nice breeding opportunity. Some guys will say he isn't big enough, but the bull is packed full of muscle. He is stout from all angles, has a good look with lots of character and shape in this calf. His mother is a maternal sister to Lot 3 and a maternal sister to Torque - our high-selling bull for \$75,000 two years ago. The cows breed on time, work hard, and always bring home big calves. A fleshing-ability, cow-maker kind of bull with as much mass as you can put on one. We will sample this bull via AI.

Copper is one of my favorite bulls this year. He doesn't blow you away in size, but I think he is a true breeding piece. If you have a sire group of females that you need to knock some middle in and make them a little easier going and cowy, Copper is your bull. His mother raised a full brother in blood that was our high-seller two years ago. Considering what Seneca has done in this cow family, I feel confident in the mating and the influence it could have. This bull has the shape of his brother with more character and type. We will use him hard this spring in our AI program.

Right on Time's pedigree is one of our favorites this year. He has herd bull character and will be dead shot calving-ease. His daddy, Pie Just Right, was one of the most impressive yearlings I have ever seen, with my own eyes. His mother is a coming 3-year-old Seneca daughter who goes back to the Primrose line - EXT x Basin Max 602C. A full brother, RREDS Fundamental 8818, spends his summers at Saustagaurd Red Angus and semen is available with ST Genetics. Right on Time has 17 CED, real performance, a good foot and will make awesome momma cows.

New day is will make an awesome heifer bull. He has a great shoulder and a little baby doll head on him. He has herd bull power and dimension with a pedigree we call safe for heifers. His mother is a little 2-year-old upfront that is out of an old proven cow and has bred back AI as a wet two. She is excellent uddered, feminine fronted and has a nice look. An honest heifer bull that won't leave you hanging come weaning time for performance.

Tenacious is our first son to sell by Heavy Duty. He is a stout-made outcross bull for us, out of a good Rollin Deep daughter that gets it done. She is a maternal sister to RREDS Takeout. This guy has a bit more frame and power. I'd use him to scale up a set of cows just a tick, without stopping maternal performance.

Heavy Hitter would probably be my pick of the Heavy Duty sons. His mother is a mainstay in our program, and you can't look past what she has done for us. I should take the time to thank Craig Howard for putting me on this cow when she sold - thanks, Craig. The bull is a combination of the mating - power and muscle from his sire with calving-ease and production on his dam side. A maternal brother to the dam of Lot 4.

This is an ET son by Seneca and the Chancellor cow. She is new to our donor program but has awesome breed character. She had a Seneca calf we lost a couple of years ago that was really on the radar. So, we flushed this way and this calf will be the first to sell. He is sharp-made, full of middle, and is hooked up really nice. The cow is really good, and this calf could be a sleeper.

This Seneca calf is Kam's bull and I told him he should be proud of this one – the calf is really cool. He is dark red, stout-made, with great base width and muscle. His dam fell through this year as a 7-year-old. Up until then, she was really solid for reproduction but sometimes they fall out for various reasons. He says to me, "I guess I'll just have to keep working on the daughters." It was tough for him to say goodbye to that cow, but he knows that we have a responsibility as seedstock breeders to have that protected for the commercial producer. Her daughters are bred AI and the cycle continues.

Probably the first black red carrier sired by Raindance that will sell in the breed. He was a real stand out that year and has really been used hard on the Black Angus side. The cow is the mother to Lot 26. We flushed her for the reason listed in that footnote. A younger calf with fresh genetics.
