W E L C O M E *fellow cattlemen*

Thank you for taking the time to consider our program. This year marks our 10th sale and I can't believe how fast time has gone by. We are truly grateful for your support and trust in us over the years.

For us, the philosophy remains the same, produce cattle that have strong maternal traits and that are bred to last. Fertility and convenience traits are still the most important to us. We want our bulls to go to your place and produce sons that perform in the yard but just as importantly have daughters that have the ability to breed up and produce for a long time.

We feel this crop of bulls is our most consistent yet. They are heavier as a group than ever before but still stand on good feet. The bulls are athletic and ready to go do their job. They are sound and we culled out anything that we wouldn't use ourselves.

Thanks again for considering our program and please don't hesitate to reach out if you have any questions. You are always invited to come and see the bulls and the cow herd.

Thanks Again, Jordan Rhodes

We are starting the sale this year with Reliable M4132 because he is an example of what we are breeding for. No crazy extremes in any one trait but balanced in every way you can evaluate one. He has a herd bull presence and has been that way since he was a baby. He is square made, sound, and good lined. His mother and grandmother are both easy doing, productive cows. He offers a fresh outcross pedigree known for excellent female makers and we are excited to use him back in the program.

Affectionately known as Bobcat, he is an easy one to start the Blueprint division. What he lacks in frame, he makes up for in dimension and thickness. This bull is big butted and thick. He's got a real herd bull presence.

This bull should make really good females. His mother is a 12 year old cow that has done a great job over the years. His calves should be the kind that last.
